NSBM SportsHub

Sports Club Management System

RESEARCH & DEVELOPMENT (R&D) REPORT

Project type: Web Development Project

Prepared from: supplied r&d.docx, researcher-provided discussions/observations, and the NSBM official sports club website identified by the researcher.

Research status: Preliminary report with pending confirmations clearly marked. This report does not represent unverified details as official university facts.

Prepared for academic project research and requirements analysis

Executive Summary

NSBM SportsHub is a proposed centralized web platform intended to help NSBM students discover sports clubs, view approved club information and training schedules, submit membership applications, and receive timely announcements. Authorized staff or committee users would maintain club information, review applications, and publish schedule and event updates.

The research material identifies a list of sports, a set of training times and venues, selected committee details and achievements, and reported communication practices. The researcher also reports that match and tournament updates are shared in WhatsApp groups and would like to make these updates available as website notifications. The exact current membership route is not yet confirmed: QR code, Google Form and physical form are all possibilities, and the current QR/form has not yet been received.

The report separates (1) details recorded in the supplied research document, (2) researcher-provided observations, (3) proposed features, and (4) items requiring confirmation. Training schedules, staff assignments, club counts, achievement lists, and budget figures must be checked with the relevant university contact before the website publishes them as current official information.

Primary recommendation

- **First release:** club directory and club pages, training schedules, announcements/notifications, online membership application, application status, and a protected admin dashboard.
- **Next priority:** match/tournament calendar and team-member updates, after the relevant workflows and permissions are confirmed.
- **Future/conditional:** facility/equipment booking. The researcher reports that ground booking is not currently used for regular practice; practice time slots are already assigned. A booking feature should therefore be added only if stakeholders identify a real need.

Status note: This is a research and requirements report, not confirmation that NSBM has approved the proposed system or that all listed details are current.

Contents

- 1. Project Overview and Objectives
- 2. Research Basis and Methodology
- 3. Existing Situation and Current Processes
- 4. Problems and Opportunities
- 5. Stakeholder Requirements
- 6. Proposed Features and Priorities
- 7. Proposed System Structure and User Flows
- 8. Club Inventory and Training Schedules
- 9. Committee Details and Achievements
- 10. Source Register and Evidence Quality
- 11. Limitations and Pending Confirmations
- 12. Conclusion and Next Actions
- Appendix A. Feature Prioritization

1. Project Overview and Objectives

Project name: NSBM SportsHub – Sports Club Management System

Project area: Web development

R&D focus: Existing sports club operations, student joining processes, communication, schedules, club information, and system requirements.

1.1 Aim

To investigate the current ways students discover and join NSBM sports clubs and receive sports-related information, then define a practical web-based system that centralizes approved club information and helps students and authorized administrators manage key tasks.

1.2 Objectives

- Identify the sports/clubs listed in the supplied source material and organize available schedules, venues, committee details and achievements.
- Investigate how membership applications are collected, reviewed and communicated to students.
- Document how training schedules, matches and tournaments are currently communicated.
- Identify the needs of students and authorized staff/club committee members.
- Separate essential first-release features from useful additions and features that should remain future/conditional.
- Record source limitations and questions that require official confirmation before implementation or publication.

1.3 Intended users

User group	Likely tasks (proposed; confirm with stakeholders)
Students	Browse clubs, check schedules and announcements, apply to join, check application status, view match/tournament information.
Authorized staff / sports coordinator	Review applications, approve or reject them if that workflow is confirmed, maintain official club details and oversee updates.
Club committee members (if authorized)	Submit or maintain club-specific schedules, notices, team updates and event information, subject to agreed permissions.

2. Research Basis and Methodology

2.1 Materials used

- The user's supplied *r&d.docx*, which contains a sports list, training schedule table, reported joining-process notes, requirements, committee details and achievements.
- NSBM official sports club website, identified by the researcher as a source for sports-club information. The exact page URL and access date still need to be recorded in the final evidence log.
- Discussions with club members, as reported by the researcher. These discussions are informal research inputs; official confirmation from the responsible university representative is still required.

2.2 Method

This report uses document review and researcher-reported discussions. It organizes the supplied material into a system-requirements report and flags missing evidence. No formal survey results, interview transcripts, approved process documents, or current QR/Google Form were supplied for this report. Therefore, statements about the exact current workflow are provisional where noted.

2.3 Evidence labels used

Label	Meaning
Source document	Information written in the supplied r&d.docx. It is preserved as source material, not automatically treated as current or officially verified.
Researcher-reported	Information supplied by the researcher, including discussions with club members and current WhatsApp update practice.
Proposed	A possible feature or workflow recommended for SportsHub; it is not a description of an existing NSBM system.
Pending confirmation	Information that needs a current official source or confirmation from the responsible university contact.

Research integrity: The report does not invent an official QR link, form, approval workflow, current committee assignments, a confirmed budget, or an official number of clubs.

3. Existing Situation and Current Processes

3.1 Membership and joining process

The supplied research document says that some clubs sometimes use Google Forms and some use physical paper forms. The researcher has stated that the exact current method still needs confirmation and that the QR code/form has not yet been received. The process after a student submits a form—including who checks it, how acceptance is decided and how the student is informed—has not been verified.

Process point	Current research finding	Status
Finding club information	The official NSBM sports club website is one source; researcher reports that club information is also shared through club-member communication channels.	Partly documented; current coverage needs checking
Applying to join	QR code / Google Form / physical form are possible routes, but the exact current route is not confirmed.	Pending confirmation
Application review	The source document says there is no clearly centralized process identified in the research material.	Needs confirmation with responsible staff
Approval / rejection	No verified official workflow or decision-maker details supplied.	Pending confirmation
Status notification	No verified current status-tracking method supplied.	Pending confirmation

Potential form fields recorded in the supplied document

Full name; Student ID; faculty; batch; phone number; other extracurricular activities; experience in the selected sport. These fields are examples from the source material, not a verified current form. Collect only fields approved by the university.

3.2 Matches and tournaments

Researcher-reported current process: match and tournament information is shared in WhatsApp groups. The proposed improvement is to publish these updates through SportsHub announcements/notifications and a match/tournament calendar, so students can find updates without searching through older chat messages. The exact persons who create or approve announcements, the timing of updates, and whether scores/results are currently recorded centrally remain to be confirmed.

3.3 Training schedules and venues

The supplied document lists practice days, times and venues for 17 sports/sport sections. These schedules are included in Section 8 as source-recorded details. They should be displayed on the site only after an authorized person confirms that they are current. The source materials contain a discrepancy in the total number of clubs and a possible distinction between clubs and sub-sports; this report avoids claiming a final official count.

3.4 Facility and equipment booking

Researcher-reported information: there is no ground-booking process for regular practice; practice time slots have already been assigned. The source document also raises equipment availability questions, but no verified equipment-issue, maintenance or reservation process was provided. A facility/equipment booking module is therefore not treated as essential for the first release; the need should be confirmed before development.

4. Problems and Opportunities

Issue / opportunity	Basis in current research	Possible SportsHub response
Information is spread across channels	Source document reports no single centralized platform; researcher reports WhatsApp group updates.	Central club directory, announcements and a calendar.
Students may not know how to join	Source document says joining is not fully available directly through one website process; exact current form route is pending.	Online membership application and clear joining instructions.
Application status may be unclear	No verified status process was provided in the source material.	Show submitted / under review / approved / declined only if the university confirms these states and workflow.
Schedule changes need clear communication	Source document reports schedule update/communication difficulties; current schedules require verification.	Authorized schedule updates with last-updated date and notifications.
Club details may be incomplete or outdated	Some committee and achievement details in the source are duplicated, absent or potentially old.	Use an approval/update process and show verified update dates.
Equipment availability questions	The source document mentions equipment concerns but does not establish a booking workflow.	First document equipment management needs; add booking only if confirmed.

These are research findings and reported concerns, not a formal measurement of the scale of each problem. A stakeholder interview and student questionnaire can help confirm how often each issue occurs and which should be prioritized.

4.1 Expected benefits (proposed)

- Students can find club details and joining instructions in one place.
- Schedules and event updates can be published in a consistent location.
- A controlled application view can make membership requests easier to track.
- Authorized staff can update approved information without relying only on scattered chat messages, if the system is designed to support this.
- The project team can begin with a manageable set of core functions and expand after feedback.

5. Stakeholder Requirements

The requirements below are provisional design requirements based on the supplied source document and researcher input. They must be validated with students and the responsible staff/committee before final implementation.

5.1 Student requirements

- Browse the sports-club directory and view individual club information.
- View approved training days, times and venues.
- Read announcements and receive or see notifications for matches, tournaments and schedule changes.
- Submit a membership application online, once the official fields and joining rules are confirmed.
- Check the status of an application if the university approves status tracking.
- View a match/tournament calendar and approved team updates, subject to access rules.

5.2 Administrator requirements

- Sign in through a protected administrative interface.
- Create or update club profiles, schedules, announcements and event information.
- View membership applications and record decisions if an approval workflow is agreed.
- Control which staff/committee users can edit each club's information.
- Maintain accuracy by recording who updated information and when, where practical.
- Export reports or manage equipment/facilities only if stakeholders confirm these functions are needed.

5.3 Non-functional requirements

Requirement	Proposed expectation
Usability	Simple navigation and clear joining instructions for students with different levels of technical experience.
Security	Only authorized users can view or change administrative/member data.
Privacy	Collect the minimum student information approved by NSBM and avoid exposing personal details publicly.
Accuracy	Display approved details; where practical, show a last-updated date and responsible editor.
Compatibility	Work on common mobile and laptop browsers.
Maintainability	Allow authorized users to update club content without editing website code, if feasible within project scope.
Availability	Provide a clear fallback contact/process if the system is temporarily unavailable; confirm operational expectations with the university.

6. Proposed Features and Priorities

The features below reflect the user's requested list. Priorities are recommendations for project planning, not university-approved requirements.

Priority	Feature	Reason / condition
Essential – first release	Club information pages	Core purpose: central place for approved club details.
Essential – first release	Training schedules	Students need to find approved practice times and venues.
Essential – first release	Announcements / notifications	Supports timely communication for changes, matches and tournaments.
Essential – first release	Online registration	A key project goal; implement after official joining route, fields and consent are confirmed.
Essential – first release	Application status	Useful to students; requires an agreed status and approval process.
Essential – first release	Admin dashboard	Needed for authorized updates and application management.
Additional – after validation	Match and tournament calendar	High value because updates are currently reported to be shared in WhatsApp groups; confirm who maintains it.
Additional – after validation	Team-member updates	Confirm what roster details can be shown, who may edit them, and which details are private.
Future / conditional	Facility and equipment booking	Not essential based on current research: ground practice slots are already assigned and regular ground booking is reported not to be used. Reassess if other facility/equipment workflows require booking.
Defer unless justified	Payments, live streaming, advanced athlete analytics, wearable integrations, complex league automation	Not requested as core functions and could expand development, privacy and support responsibilities.

6.1 Suggested first-release boundary

For a manageable student project, the first release should focus on club pages, schedules, announcements, membership applications, application status, and an admin dashboard. The match/tournament calendar may be included if time and stakeholder confirmation allow. Facility/equipment booking should remain out of scope until an actual booking process and user need are documented.

7. Proposed System Structure and User Flows

7.1 Suggested information structure

Area	Example content
Home	Latest approved announcements, upcoming matches/tournaments, quick links to clubs.
Sports clubs	Club directory and individual club pages.
Club page	Sport overview, joining instructions, approved committee/contact information, training schedule and achievements.
Join a club	Approved registration fields, privacy notice, submission confirmation.
My application	Application status, only if approved as part of the process.
Calendar	Training sessions, matches and tournaments with date/time/location where available.
Admin dashboard	Manage club details, schedules, announcements, applications and role permissions.
Future booking area	Facility/equipment request and status only if booking is confirmed as necessary.

7.2 Proposed student application flow

- Student opens SportsHub and selects a club.
- Student reads the approved club details and joining requirements.
- Student completes the approved online application form and submits it.
- System records the application and displays a submission confirmation.
- Authorized staff/committee reviews the application according to the confirmed university process.
- Student can view the decision/status if this workflow is confirmed and implemented.

7.3 Proposed announcement flow

- Authorized user drafts an announcement, match notice, tournament update or schedule change.
- Authorized user checks the details and publishes the update.
- The update appears on the relevant club page and/or calendar; notifications are shown or sent using the notification method supported by the final design.
- The announcement remains available for students to refer to later.

These are proposed workflows for design discussion. They are not descriptions of the current NSBM process.

8. Club Inventory and Training Schedules

The following table transcribes the training details from the supplied r&d.docx. Treat these as source-recorded, not independently verified current schedules. Obtain approval before publishing them as live information.

Sport / club section	Venue recorded in source	Days and time recorded in source
Athletics	NSBM Phase 02 Ground	Mon, Wed, Fri — 3:00 pm–5:00 pm
Cricket	NSBM Phase 02 Ground	Mon, Wed — 1:00 pm–3:00 pm
Rugby	NSBM Phase 02 Ground	Mon, Wed, Fri — 2:00 pm–6:00 pm
Football	NSBM Phase 02 Ground	Tue, Thu — 3:00 pm–6:00 pm
Calisthenics	Phase 02 Ground (Outdoor Gym)	Wed, Fri — 3:00 pm–5:00 pm
Archery	NSBM Phase 01 Ground	Tue, Thu — 9:00 am–12:00 pm
Netball	NSBM Phase 01 Ground	Mon, Wed, Fri — 2:30 pm–5:00 pm
Volleyball	NSBM Phase 01 Ground	Wed, Fri — 3:00 pm–5:00 pm
Hockey	NSBM Phase 01 Ground	Tue, Thu — 2:00 pm–5:00 pm
Badminton	NSBM Indoor Stadium	Tue, Thu — 9:00 am–4:00 pm
Basketball	NSBM Indoor Stadium	Mon, Wed — 10:00 am–1:30 pm
Taekwondo	NSBM Indoor Stadium	Wed, Fri — 3:00 pm–7:00 pm
Karate	NSBM Indoor Stadium	Tue, Thu — 2:00 pm–6:00 pm
Table Tennis	NSBM Indoor Stadium	Mon, Tue, Wed, Thu — 1:00 pm–5:00 pm
Powerlifting	NSBM Gymnasium	Mon–Fri — 11:30 am–2:30 pm
Swimming	NSBM Swimming Pool	Tue, Thu — 2:30 pm–5:00 pm
Chess	FOC – L – 104	Wed, Fri — 9:00 am–12:00 pm

Inventory discrepancy: The source document lists 17 schedule rows, while another section says 16 sports clubs and notes 11 listed on the official website plus others from physical schedules. Taekwondo and Karate may be sub-sports under Martial Arts in the committee notes. Tennis is also described in the committee notes as a club initiative, but it is not in the 17-row schedule table. The official active club count and category structure are pending confirmation.

9. Committee Details and Achievements

The source document contains committee and achievement details copied from prior information. This section summarizes what was supplied. Names, spellings, titles, current roles and dates may be outdated; confirm before publishing. Duplicate source entries are not repeated.

9.1 Details supplied for selected clubs

Club	Committee / staff details recorded in source
Athletics	President: Vinsuka Gammanpila. Male Captain: Naveen Perera; Female Captain: Aaradhi Perera. Male Vice Captains: Sasindu Adhikari, Linuka Rathnappriya. Female Vice Captains: Umasha Jayarathne, Udari Bandara.
Badminton	Staff listed in source: Mr. Thisal Yatawara / FOB; Ms. Ashani Jayasundara / FOB. President: Induneth Fernando. Male Captain: Manthuka Rupatunge; Female Captain: Sandali Gee Kiyanage. Vice Captains: Tharindu Umayanga and Methmi Shehara. The document also contains a second conflicting badminton/chess-like block; verify details.
Chess	Staff listed: Mr. P. Thilakarathne / FOC and Ms. Isuri Caldera / FOB. President/Captain: Kalpa De Silva. Vice President: Shashan Thissera.
Cricket	Staff in charge: Gayan Rukshantha Jayasinghage / FOC. President: Monil Jason; Vice President: Sandesh Mendis; Captain: Ashan Lokuketiya; Vice Captain: Uvindu Chandrasiri; Secretary: Bawantha Pasqual; Treasurer: Shenuk Perera; Media Coordinator: Rashmika Bandara.
Netball	Staff listed: Ms. Nethmi Udara / FOB and Ms. Charmain Patrick / FOB. Captain: Malithi Dissanayake; Vice Captain: Dilmi Sathsarani.
Rugby	Staff listed: Prof. J. B. Dodankotuwa / FOB and Ms. Shehani Joseph / FOB. Captain: Dinil Akash Kulasooriya; Vice Captain: Lasaan Pathirana.
Swimming	Staff listed: Mr. Shamila Kulatunga / FOE and Ms. Samithri Wannichy / FOB. Male Captain: Dunitha Dulkith Alles; Female Captain: Vinuji Edirisinghe. Male Vice Captain: Pasindu Thenura; Female Vice Captain: Mahesha Yapa.
Table Tennis	Staff listed: Ms. Tharani Sooriyaarachchi / FOB and Mr. Piumal Herath / FOB. Men's Captain: Hiran Kanchana; Women's Captain: Hansani Kapugeekiyanage.
Volleyball	Staff listed: Ms. V. K. M. Chandima / FOB and Mr. Praveen Ranaweera / FOB. Male Captain: Nuwan Jayalath; Male Vice Captain: Nimesha Lokuge; Female Captain: Heshani Hettige; Female Vice Captain: Thakshila Jayathilaka.
Martial Arts	Source groups Taekwondo and Karate. Staff listed: Mr. Maleesha Edirisinghe / FOB and Ms. Rhythmani Perera / FOB. Taekwondo captains: Rajith Ruwan Bandara Thennakoon (male) and Dewmi Rivithma Amarasinghe (female); vice captains listed as Dilshan Lahiru Samanweera and Gayan Sampath Samarasinghe. Karate Captain: G. V. Sashika Rukshan; Vice Captain: Ashan Dimantha Herath.
Tennis	Source describes the Tennis Club as an initiative to be started in 2023; its current status and committee details require confirmation.

9.2 Achievements recorded in source

Club	Achievements recorded in supplied document (not independently verified)
Athletics	SLIIT Relay Competition 2023: overall runner-up (university boys), overall 2nd runner-up (university girls), gold in 4×200 m (university boys) and gold in medley relay (university boys). SLTC Athletic Meet 2022: 2nd runners-up (invitation relay). NSBM U-Sports 2022: men's overall 2nd runners-up.
Badminton	Colombo Shuttle Saga 2025: runners-up; ICBT Smash Down 2024 girls: 2nd runners-up; GSF 2024: runners-up; ICBT Smash Down 2023 girls: 2nd runners-up; U-Sports 2023 boys champions, girls runners-up; U-Sports 2022 male champions and female 2nd runners-up; SMASHES 2022 mixed 2nd runner-up; APIIT Extravaganza 2022 mixed 2nd runner-up; GSF 2019 champions.
Chess	Source records multiple team and individual results in 2022, including Ethugalpura International Rated Open Chess Championship (Higher Education Sector) boys team champions; Sabra Chess Championship NSBM A Team champions and boys team runners-up; Kalutara International Rated Open Chess Championship team 1st runners-up; SLIIT Castle Fest girls team runners-up; NSBM U-Sport girls team 2nd runners-up; individual results for Hashara Janandani Abeysinghe and Sayuni Gihansa. Exact event categories/results need source verification.
Cricket	NSBM U-Sport 2022: runner-up; APIIT Extravaganza 2022: runner-up; KDU Leaders Trophy 2018: runner-up.
Netball	U-Sports 2022: 2nd place; KDU Leaders Trophy 2017 and 2018: runners-up; CIMA Tournament 2017: 2nd runners-up.
Rugby	CINEC Rugby Showdown 2024: championship; APIIT Extravaganza Rugby Championship 2023: champions; MORA 7s 2023: champions; U-Sports Rugby 2022: champions; LEO Super 7s Cup 2020: runner-up; MORA 7s 2019: ball runner-up; UITM International Sports Fiesta Rugby 2019: plate champion; UITM 2018: ball champion; KDU Leaders Trophy 2018 and 2017: champions; ICBT 7s 2018: plate champion; MORA 7s 2018: ball champion; MORA 7s 2017: cup runner-up; APIIT 7s 2017: cup runner-up.
Table Tennis	U-Sports 2022: men's 2nd place, women's 2nd place, mixed event champions.
Taekwondo	Independence Cup Taekwondo Championship 2023: 1 silver medal and 2 bronze medals.
Karate	10th Commonwealth Karate Championship (Birmingham, England): 2nd runners-up; Kanninjuku International Karate Championship: 11 medals; International Peter Gimo Super Cup Open Karate Championship: 5 gold, 2 silver and 1 bronze; 25th International Open Karate Championships 2022: 5 gold medals.
Swimming	The supplied document says no achievements were listed. Confirm whether this means no achievements or simply no details supplied.

Clubs/sports such as Calisthenics, Archery, Basketball, Football, Hockey and Powerlifting do not have complete committee/achievement details in the supplied source. Do not invent them; request current approved information if those pages will be included.

10. Source Register and Evidence Quality

The supervisor specifically requested sources. This register identifies the sources actually supplied or described and the additional evidence still needed. Add the exact URL and access date before final academic submission.

ID	Source / evidence	What it supports	Evidence status / action
S1	NSBM official sports club website (exact URL not supplied in this report)	Publicly presented club information, potentially including club descriptions, roles and achievements.	Record exact page URL, page title and date accessed; save approved screenshots where permitted.
S2	Researcher-supplied r&d.docx	List of sports, schedule table, current-process notes, requirements, committee details and achievement lists.	Available source document. Cross-check names, schedules and achievements with current official sources.
S3	Discussions with club members (reported by researcher)	Informal insight into communications and club operations.	Discussion notes, dates, participant roles and permission to quote were not supplied. Record them; seek official confirmation.
S4	WhatsApp group updates (reported by researcher)	Researcher says match/tournament updates are currently shared in WhatsApp groups.	No screenshots or message samples supplied. Use only with permission and avoid exposing personal data.
S5	Current QR code / registration form	Would confirm actual joining route and current form fields.	Not received yet. Pending.
S6	Official confirmation from sports coordinator / responsible staff	Current club count, schedules, roles, joining/approval workflow, budget and system priorities.	Not yet received. Required before treating uncertain details as official.
S7	Comparable systems: TeamSnap, Sportlyzer, Playwaze (listed in preliminary research notes)	Potential ideas for schedules, messaging, membership and bookings.	Optional secondary research. Verify current official pages and include exact URLs/date if retained in final submission.

Suggested source-reference entries to complete

- NSBM official sports club webpage: exact URL — [PENDING]; page title — [PENDING]; date checked — [ADD DATE].
- Club-member discussions: discussion date(s) — [PENDING]; roles of participants — [PENDING]; main notes — [PENDING].
- Registration QR / Google Form / physical form: link or photo — [PENDING].
- Official confirmation: contact role/name, date, and confirmed items — [PENDING].

11. Limitations and Pending Confirmations

Item	Current status	What to do next
Exact membership process	QR code / Google Form / physical form not confirmed; current QR/form not received.	Obtain the form or QR and ask who reviews applications and how students are notified.
Club count and structure	Source says 16 clubs, lists 17 schedule rows, says 11 appear on official website, and describes Taekwondo/Karate under Martial Arts; Tennis appears separately.	Ask the responsible university contact for the current official list and whether sub-sports count as separate clubs.
Training schedules and venues	Transcribed from supplied source; not confirmed current.	Ask authorized staff to validate every row and note the date approved.
Staff / committee names	Some information may be duplicated, inconsistent or old.	Verify names, spellings, titles and current terms before publication.
Match/tournament process	Researcher says updates are shared in WhatsApp groups; approval and publishing responsibilities unknown.	Ask who posts updates, which details are official, and whether results/scores are recorded.
Facility/equipment process	Ground booking for regular practice is reported not to be used; practice slots are assigned. Equipment process unknown.	Confirm whether any other facilities or equipment need requests, loans, inventory or reservations.
Annual budget	Around LKR 100,000 per club per year is researcher-reported and unverified.	Do not present as official; confirm with the responsible finance/sports office or remove from report.
Student survey / formal interviews	No questionnaire results, formal interview transcripts or sample size supplied.	Run a small approved questionnaire and document the sample, dates and summary if required by the assignment.
Data privacy and permissions	Approval requirements for publishing student names, photos, team lists and contact details are unknown.	Ask NSBM what personal data can be collected/displayed and who may access it.
Official project scope	Feature list is proposed by the researcher; final stakeholder approval not supplied.	Review priorities with supervisor and authorized sports representative.

Budget note: The figure of approximately LKR 100,000 per club per year is intentionally labelled pending confirmation and should not be presented as an established university allocation until verified.

12. Conclusion and Next Actions

The supplied research material provides a useful starting point for a centralized sports-club website. It records a range of sports, practice schedules, selected committee details and achievements. The researcher reports that match and tournament updates are currently shared in WhatsApp groups and wants students to receive timely website notifications. However, the current membership process, approval workflow, current official club inventory, schedules, staff assignments and budget have not yet been fully verified.

The most practical first version of SportsHub should prioritize a club directory, individual club pages, approved training schedules, announcements/notifications, online membership applications, application status and a protected admin dashboard. A match/tournament calendar and team-member updates can be added after their ownership and privacy rules are agreed. Facility/equipment booking should be conditional because the researcher reports that regular ground practice times are already assigned and ground booking is not currently used for that purpose.

Recommended next actions

- **1.** Obtain the QR code or current joining form; document the exact form fields and joining instructions.
- **2.** Ask the responsible sports coordinator/staff member to confirm the official club list, current schedules, staff roles and committee contacts.
- **3.** Confirm the membership review and notification workflow: who receives applications, who decides, and how the student learns the outcome.
- **4.** Ask how WhatsApp match/tournament updates are created and approved, and decide who can publish website notices.
- **5.** Confirm whether equipment management or any facility booking process is required.
- **6.** Verify or remove the LKR 100,000 per-club annual budget statement.
- **7.** Record exact source URLs, access dates and interview/discussion dates; keep evidence with permission.
- **8.** Review the essential/future feature list with the project supervisor before finalizing the system scope.

Final finding

SportsHub is a reasonable proposed solution to investigate centralized club information, registration and communication. Its final design should be based on verified NSBM workflows and approved stakeholder requirements rather than assumptions.

Appendix A. Feature Prioritization Summary

Feature	Recommended priority	Validation needed
Online registration	Essential	Confirm exact form fields, eligibility, privacy notice and review process.
Club information pages	Essential	Confirm official club list and approved descriptions/contact information.
Training schedules	Essential	Confirm current times, venues and who may update them.
Announcements / notifications	Essential	Confirm who can publish, and whether notifications are on-site, email, or another supported method.
Application status	Essential candidate	Confirm approved statuses and who updates them.
Match & tournament calendar	Additional / high priority	Confirm event details, publishing responsibility and result handling.
Team-member updates	Additional	Confirm which names/details can be published and who maintains them.
Facility / equipment booking	Future / conditional	Confirm a genuine booking/request workflow; ground booking for regular practice is reported not to be used.
Admin dashboard	Essential	Confirm roles and permissions for staff/committee users.

Appendix B. Items deliberately not invented

- No QR code or registration form URL has been created or guessed.
- No formal interview date, participant count, survey result or questionnaire statistic has been invented.
- The reported budget has not been stated as an official NSBM allocation.
- Conflicting club totals and staff assignments have not been silently reconciled.
- Missing achievements and committee details are marked as not supplied / pending confirmation.

End of report

Appendix C. Information Collection Plan — Whom to Ask and What to Collect

This section records the practical people/roles to contact for the remaining R&D details. These are recommended sources to approach, not a claim that the people have already confirmed the information. Confirm the correct contact person and role with NSBM before relying on their answers.

C.1 Who should provide each type of information?

Person / role to approach	Details to collect	Why / status
Sports coordinator / person responsible for all sports clubs (research notes mention Shanika Miss; confirm name, title and role)	Official club list; current club count; current schedules and venues; staff in-charge; joining process; application review/approval; who can publish announcements; which features are approved.	First contact. The identity/role and each answer need official confirmation.
Club captains, presidents or committee members for each club	How students currently join; current registration route; practice schedule changes; match/tournament update process; achievements; current team/committee information.	Ask each club only for information relevant to that club; verify before publishing.
Ordinary club members / students	How they hear about clubs, matches and tournaments; difficulties finding information or joining; what notifications and application status they would find useful.	Researcher has already reported discussions with club members, but formal notes, dates and participant count are still needed.
Person who manages the NSBM sports website or official web content	Official page URLs; which club details are approved for publication; who updates pages and how often; permission to reuse official information.	Contact person not yet identified; pending confirmation.
Staff responsible for grounds, indoor facilities or equipment (if applicable)	Whether any facility/equipment requests, bookings, issue/return, inventory or maintenance process exists; who manages it.	Researcher reports that regular ground booking is not used because practice slots are assigned. Equipment and other facilities still need confirmation.
Project supervisor	Required R&D report format; expected evidence of discussions; minimum requirements for final project; feature scope approval.	Confirm academic expectations before final submission.

C.2 Recommended order of contact

Step 1: Ask the sports coordinator/responsible staff member to confirm who is authorized to provide official information and who maintains the current sports-club list.
Step 2: Request the current QR code or registration form and ask the exact steps from application to decision and student notification.
Step 3: Ask club captains/committee members to verify each club's training times, venues, contacts, achievements and match/tournament update process.
Step 4: Ask students/club members about information-access problems and useful website features; write down the date and general role of each participant without recording unnecessary personal details.
Step 5: Contact the facilities/equipment responsible person only to confirm whether a real booking or equipment-management process exists.
Step 6: Record the exact official website URL, page title and date accessed, and get supervisor approval for the proposed feature priorities.

C.3 Questions to ask the sports coordinator

1. What is the official list of active sports clubs, and are Taekwondo and Karate separate clubs or sections under Martial Arts?
2. Who is the correct person to confirm and update the training schedule for each club?
3. What is the current membership registration method: QR code, Google Form, paper form, or a different process?
4. Who receives and reviews applications, who makes the decision, and how is the student informed?
5. Who is allowed to post match/tournament announcements and schedule changes?
6. Are application-status tracking and team-member updates suitable for the website?

7. Is there any facility/equipment booking or issue/return process that should be included?
8. Is the reported annual budget of around LKR 100,000 per club correct? If yes, who can officially confirm it?

C.4 Evidence log to fill in after each discussion

Date	Person's role (avoid unnecessary personal data)	Topics confirmed	Evidence / follow-up
[Pending]	[Pending]	[Pending]	[Pending]
[Pending]	[Pending]	[Pending]	[Pending]
[Pending]	[Pending]	[Pending]	[Pending]

Important: Do not write that a discussion was an official interview or that a detail was approved unless this actually happened. Keep unconfirmed items labelled pending confirmation.
